# WHERE INNOVATION MEETS INVESTMENT AND MARKET INSIGHT

**April 23, 2026 | New York City**

**Our New York Conference brings you face-to-face with the people shaping strategy, capital and innovation across the US insurance, reinsurance and ILS markets.**

Built by our *Insurance Insider* editorial and ILS communities, the event connects you with 200+ senior decision-makers from carriers, reinsurers, brokers, investors and alternative capital managers all in one room, for one high-impact day.

By partnering with us, you gain access to our trusted network, our market-leading insight and our highly engaged ILS audience. The agenda combines US P&C sessions with a dedicated ILS track, giving you a powerful platform to engage both traditional and alternative capital leaders in a single forum.

Together, we focus on what matters most to you: navigating volatility, understanding capital flows, responding to emerging risk and positioning your business at the centre of market innovation.

You won't just be visible on the day through our content, connections and coverage, your brand stays front of mind well beyond the conference itself.
